INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Bona Vista Water Improvement District

We have audited the accompanying financial statements of the business-type activities of Bona Vista Water Improvement District, as of and for the year ended December 31, 2005, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Bona Vista Water Improvement District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of Bona Vista Water Improvement District, as of December 31, 2005, and the respective changes in financial position and cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued our report dated May 31, 2006, on our consideration of Bona Vista Water Improvement District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Board of Directors
Bona Vista Water Improvement District

The management's discussion and analysis on pages 3 through 7 is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Wood Richards & Associates

Ogden, Utah May 31, 2006

BONA VISTA WATER IMPROVEMENT DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS DECEMBER 31, 2005

This document is a narrative overview and analysis of the financial activities of Bona Vista Water Improvement District for the year ending December 31, 2005. Bona Vista Water Improvement District's management encourages readers to consider the information presented here in conjunction with the financial statements, which follow this section.

Basic Financial Statements

The Balance Sheet focuses on resources available for future operations. In simple terms, this statement presents a snapshot view of the assets the district owns the liabilities it owes and the net difference. The net difference is further separated into amounts invested in capital assets, net of related debt; restricted for specific purposes and unrestricted amounts.

The Statement of Revenues, Expenses and Changes in Net Assets focuses on operating revenues and expenses and the extent to which the water fund relies on non operating revenues of impact fees, interest revenue, and operational activities.

The Statement of Cash Flows presents information related to cash inflows and outflows summarized by operating, non-capital financing, capital and related financing, and investing activities.

The notes to the financial statements provide additional disclosures required by governmental accounting standards and provide information to assist the reader in understanding the District's financial condition.

The Management's Discussion and Analysis is intended to explain the significant changes in financial position and differences in operation between the current and prior years. When possible, significant changes from the prior year are explained in the following paragraphs.

BONA VISTA WATER IMPROVEMENT DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS DECEMBER 31, 2005

Financial Statements

A condensed version of the Balance Sheet at December 31, 2005 and 2004 follows:

	2005	2004
Cash and cash equivalents Other assets	\$ 4,795,769 363,745	\$ 5,008,131 329,104
Capital assets	8,416,480	7,519,238
Total assets	\$ 13,575,994	\$ 12,856,473
Current liabilities	\$ 284,762	\$ 297,560
Total liabilities	284,762	297,560
Net assets:		
Invested in capital assets, net of related debt	8,416,480	7,519,238
Restricted	1,393,086	1,293,416
Unrestricted	3,481,666	3,746,259
Total net assets	13,291,232	12,558,913
Total liabilities and net assets	\$ 13,575,994	\$ 12,856,473

During the year ended December 31, 2005 the significant events that changed the balance of net assets were:

The expansion in 2005 included improvements and additions to the water system, the sale of the office and maintenance facility at 1483 Wall Avenue in Ogden City, and the building of the new office and maintenance facility at 2020 West 1300 North in Farr West.

BONA VISTA WATER IMPROVEMENT DISTRICT

Change in net assets	732,319	682,293
Beginning net assets	12,558,913	11,876,620
Ending net assets	\$ 13,291,232	\$ 12,558,913

BONA VISTA WATER IMPROVEMENT DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS DECEMBER 31, 2005

For the year ended December 31, 2005 the total revenues for the District were \$2,426,164, Operating revenues totaled \$1,800,204. The majority of the revenue is from water sales. The non-operating revenues of \$625,960 consist of impact fees, connection fees, and interest income.

Budgetary Highlights

The District follows the "Uniform Fiscal Procedures Act". Budgets may be increased by resolution of the Board of Directors at any time during the year, following a public hearing.

Capital Assets and Debt Administration

Capital Assets

At December 31, 2005 the District had \$8,416,480 invested in capital assets, including land, buildings, equipment and water delivery systems. This amount represents a net increase (additions, deductions, and depreciation) of \$897,242 or an 11.9% increase from the prior year.

Capital Assets at Year-end

	2005	2004		
Land	\$ 194,500	\$ 230,500		
Building	999,351	197,719		
Equipment	425,235	375,413		
Water delivery system	10,914,413	10,720,655		
Subtotal	12,533,499	11,524,287		
Accumulated depreciation	(4,117,019)	(4,005,049)		
Net capital assets	\$ 8,416,480	\$ 7,519,238		

There were \$193,758 additions to the water delivery system and \$49,822 additions to equipment and \$36,000 decrease to land during the year.

BONA VISTA WATER IMPROVEMENT DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS DECEMBER 31, 2005

Economic factors and currently known facts

The District's Weber Basin and Ogden City water assessment increased by \$72,267 in 2005. These assessments are likely to have additional increases in the future.

The District's future plans are to make improvements to existing water system and install large feeder lines in areas of new growth financed by impact fees.

Financial Contact

The District's financial statements are designed to present users (citizens, taxpayers, customers, and creditors) with a general overview of the District's finances and to demonstrate the District's accountability. If you have questions about the report or need additional financial information, please contact the District's Manager at 2020 West 1300 North Farr West, Utah 84404.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The Bona Vista Water Improvement District was organized under State of Utah statutes in 1956 by action of the Weber County Commissioners. This action established a legal entity that has power to levy taxes, issue bonds, and construct and operate a water improvement system to provide water for the benefit of the District area. The District is managed by a board of directors.

In defining the government, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth by the Governmental Accounting Standards board (GASB). Based upon the application of the criteria established by GASB Statement No. 14, the District has no component units.

The District's financial statements are prepared in accordance with generally accepted accounting principles (GAAP) The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable that do not conflict with or contradict GASB pronouncements). Although the District has the option to apply FASB pronouncements issued after that date to its enterprise fund, the District has chosen not to do so. The more significant accounting policies established in GAAP and used by the District are discussed below.

The District has the following fund type:

Proprietary funds are accounted for on the flow of economic resources measurement focus and use the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. The District applies all GASB pronouncements as well as the Financial Accounting Standards Board pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements.

<u>Enterprise Funds</u> are required to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges or (c) establishes fees and charges based on a pricing policy designed to recover similar costs.

Measurement Focus and Basis of Accounting

The accounts of Bona Vista Water Improvement District are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Accrual

The government's financial statements are presented on the full accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

Deposits and Investments

Cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. State statutes authorize the government to invest in obligations of the U.S. Treasury, commercial paper, repurchase agreements and the State Treasurer's Investment Pool.

Investments are stated at cost which approximates fair value.

Receivables and Payables

Real property taxes are collected by the County Treasurer and remitted to the District after collection. Taxes are due and payable on November 1st. and delinquent after 12 o'clock noon on November 30th of each year. The tax levy is established by June 15th with a lien date of January 1st. All trade and property tax receivables are shown net of an allowance for uncollectibles.

Inventories and Prepaid Items

Inventories are valued at cost using the first-in/first-out (FIFO) method.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

Capital Assets

Capital assets are defined by the government as assets with an initial, individual cost of more than \$1,000 (amount not rounded) and an estimated useful life in excess of two years. All purchased capital assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated capital assets are recorded at their estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of proprietary fund capital assets is reflected in the capitalized value of the asset constructed, net of interest earned on the invested proceeds over the same period.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Assets (continued)

Property, plant and equipment are depreciated using the straight line method over the following estimated useful lives:

Assets	<u>Years</u>
Buildings	25-50
Building improvements	15
Water System	50
Office equipment	5-10
Operating equipment	5-10

Compensated Absences

It is the District's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. No liability is reported for unpaid accumulated sick leave. Vacation pay is accrued when incurred and reported as a liability.

Equity

Equity is classified as net assets and displayed in three components:

- a. Invested in capital assets, net of related debt Consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net assets Consists of net assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net assets All other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

It is the District's policy to first apply restricted resources before applying unrestricted resources when an expense is incurred for purposes by which both restricted and unrestricted net assets are available. The District only uses the restricted net assets for their specified purposes of impact fees and fire hydrants.

Operating Revenues and Expenses

Operating revenues and expenses consist of those revenues that result from the ongoing principal operations of the District. Operating revenues consist of charges for services including property taxes assessed for those services. Nonoperating revenues and expenses consist of those revenues and expenses that are related to financing and investing type activities and result from nonexchange transactions or ancillary activities.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Budget Information

Annual budgets are prepared and adopted in accordance with the "Uniform Fiscal Procedures Act" by the Bona Vista Water Improvement District on or before December 15th for the following fiscal year, which begins on January 1. Budgets may be increased by resolution of the Board of Directors at any time during the year, following a public hearing.

The District adheres to the following procedures in establishing the budgetary data reflected in the financial statements:

- On or before the first regular scheduled meeting in November, the Director submits to the Board of Directors a proposed operating budget for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. Prior to the formal adoption of the budget the Board of Directors will hold budget workshop meetings, which are open to the public.
- Prior to budget adoption the Board of Directors sets a date for a public budget hearing at which time taxpayers' comments are heard. Copies of the proposed budget are made available for public inspection 10 days prior to the budget hearing. At the conclusion of the budget hearing the budget, as amended, is legally enacted through passage of a resolution.
- 4. Formal budgetary integration is employed as a management control device during the year for the Government Funds.
- 5. Budgets for the District are adopted on a basis consistent with Generally Accepted Accounting Principles (GAAP). Budgeted amounts are as originally adopted, or as amended by the Board of Directors during the 2005 fiscal year.
- 6. Unencumbered budget appropriations lapse at the end of the fiscal year.

2. DEPOSITS AND INVESTMENTS

The District's cash includes petty cash and amounts in demand deposits. This cash is displayed in the account titled "Cash and cash equivalents." Investments are stated at cost or amortized cost, which approximates fair value. Deposits are not collateralized nor are they required to be by State statute. The District's investments are displayed on the balance sheet in the same caption as deposits.

The District follows the requirements of the Utah Money Management Act (*Utah Code*, Section 51, Chapter 7) in handling its depository and investment transactions. This Act requires the depositing of District funds in a "qualified depository". The Act defines a "qualified depository" as any financial institution whose deposits are insured by an agency of the Federal government and which has been certified by the State Commissioner of Financial Institutions as meeting the requirements of the Act and adhering to the rules of the Utah Money Management Council.

2. DEPOSITS AND INVESTMENTS (CONTINUED)

Deposits

Custodial credit risk — Custodial credit risk is the risk that, in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a formal deposit policy for custodial credit risk. As of December 31, 2005, \$2,632,895 of the District's bank deposits of \$2,732,895 were uninsured and uncollateralized.

<u>Investments</u>

The Money Management Act defines the types of securities authorized as appropriate investments for the District and the conditions for making investment transactions. Investment transactions may be conducted only through qualified depositories, certified dealers, or directly with issuers of the investment securities.

Statutes authorize the District to invest in negotiable or nonnegotiable deposits of qualified depositories and permitted negotiable depositories; repurchase and reverse repurchase agreements; commercial paper that is classified as "first tier" by two nationally recognized statistical rating organizations, one of which must be Moody's Investors Services or Standard & Poor's; bankers' acceptances; obligations of the United States Treasury including bills, notes, and bonds; bonds, notes and other evidence of indebtedness of political subdivision of the State; fixed rate corporate obligations and variable rate securities rated "A" or higher, or the equivalent of "A" or higher, by two nationally recognized statistical rating organizations; shares or certificates in a money market mutual fund as defined in the Act; and the Utah State Public Treasurer's Investment Fund (PTIF).

The PTIF is not registered with the SEC as an investment company. The PTIF is authorized and regulated by the Money Management Act, Section 51-7, *Utah Code Annotated*, 1953, as amended. The Act established the Money Management Council which oversees the activities of the State Treasurer and the PTIF and details the types of authorized investments. Deposits in the PTIF are not insured or otherwise guaranteed by the State of Utah, and participants share proportionally in any realized gains or losses on investments.

The PTIF operates and reports to participants on an amortized cost basis. The income, gains and losses – net of administration fees, of the PTIF are allocated based upon the participant's average daily balance. The fair value of the PTIF Investment pool is approximately equal to the value of the pool shares.

2. DEPOSITS AND INVESTMENTS (CONTINUED)

As of December 31, 2005, the District had the following investments and maturities:

		Investment Maturities (in Years)	<u> </u>			
Investment Type	Fair Value	Less than	1-5	6-10	More than	Quality Ratings
PTIF Investments	2,226,760	2,226,760	-			not rated
	2,226,760	2,226,760	•	•	-	

Interest rate risk – Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District manages its exposure to declines in fair value by investing mainly in the Utah Public Treasurers Investment Fund and by adhering to the Money Management Act. The Act requires that the remaining term to maturity of investments may not exceed the period of availability of the funds to be invested. Maturities of the District's investments are noted in the previous table.

Credit risk – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The District's policy for reducing its exposure to credit risk is to comply with the State's Money Management Act as previously discussed.

Concentration of credit risk – Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The District's policy for reducing this risk of loss is to comply with the Rules of the Money Management Council. Rule 17 of the Money Management Council limits investments in a single issuer of commercial paper and corporate obligations to 5-10% depending upon the total dollar held in the portfolio. The District's investment in the Utah Public Treasurer's Investment Fund has no concentration of credit risk.

Custodial credit risk (investments) – For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District does not have a formal policy for custodial credit risk. The District's investment in the Utah Public Treasurer's investment Fund has no custodial credit risk.

Components of cash and investments (including interest earning deposits) at December 31, 2005, are as follows:

Reconciliation of deposits and investments

Deposits	\$2,568,70 9
Cash on hand	300
Investments	2,226,760
Cash and cash equivalents	\$4,795,769

3. RECEIVABLES

Receivables as of year end, including the applicable allowance for uncollectible accounts, are as follows:

Taxes	\$ 26,450
Water	98,111
Sewer, garbage, and storm drain	143,724
Other receivables	11,550
Allowance for doubtful accounts	
	\$ 279,835

4. CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2005 is as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Capital assets, not being depreciated Land	\$ 230,500	\$ -	\$ (36,000)	\$ 19 4, 500
Total capital assets, not being depreciated	230,500	-	<u>:</u>	194,500

Business-type activities capital assets, net	\$ 7,519,238	\$1,018,684	\$ (85,442)	\$ 8,416,480

5. ACCRUED COMPENSATED ABSENCES

Vacation pay is due and payable when an employee terminates employment with the District. Therefore, accumulated unpaid vacation is recorded as a liability. At December 31, 2005 the District had accrued \$30,195 respectively.

6. ACCOUNTS PAYABLE - MUNICIPALITIES

The District entered into an agreement with Harrisville City and Plain City during 1984, Central Weber Sewer District during 1986, Farr West City during 1994, and Marriott-Slaterville City during 2003 to bill and collect sewer and garbage fees. The amount yet to be collected from the customers of these municipalities is included in Accounts Receivable. The amount owing these municipalities from Bona Vista is presented in the Accounts Payable - Municipalities.

	Accounts Receivable		Accounts Payable	
Farr West	\$	39,961	\$	48,249
Harrisville		42,243		27,938
Plain City		37,456		40,637
Marriott-Slaterville		9,340		7,924
Central Weber		3,152		3,053
Total	\$ 1	32,152	\$	127,801

7. RISK MANAGEMENT - CLAIMS AND JUDGEMENTS

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters.

The District maintains commercial insurance for all major programs. There have been no significant reductions in insurance coverage. Settlement amounts have not exceeded insurance coverage for the current year or in prior years.

8. RESTRICTED NET ASSETS

<u>Impact fees</u> - An impact fee is charged on all new construction permits. The use of these fees is limited by state law to be used for capital improvements. The restricted balance is expendable for its purpose.

<u>Fire hydrants</u> - In 2003 Weber county contributed money to Bona Vista Water Improvement District. That money is restricted and entirely expendable for the installation of fire hydrants.

9. DESIGNATED NET ASSETS

The board of directors has determined that substantial improvements to their system are needed. For that purpose net assets have been designated in the amount of \$4,824,898 at December 31, 2005. To be in accordance with GASB Statement No. 34, this designation of net assets is not reported on the face of the balance sheet. Following is a list of planned improvements and estimated costs prepared by the board:

<u>Year</u>	<u>Project</u>	Estimated Costs
2005	8" water mains on HWY 89 in Harrisville	\$ 222,150
2006	8" water main at 3600 West to 3800 West	311,000
2006	8" and 10" water main at 4500 West to 5100 West	207,748
2006	18" water main at Mtn. Road to Wash. Blvd	699,000
2007	12" water main at SR 126 2700 North to 4000 North	297,000
2008	8" water main at 2200 North	269,000
2009	2 million gallon reservoir in North Ogden	2,000,000
2010	8" water main at 4000 North	262,000
2011	8" water main in various locations	131,000
2011	8" water main in Harrisville and various locations	426,000
Total estimated costs		\$ 4,824,898

10. RETIREMENT SYSTEM

Plan description

The Bona Vista Water Improvement District contributes to the Local Governmental Noncontributory Retirement System which is for employers with social security coverage cost-sharing multiple-employer defined benefit pension plans administered by the Utah Retirement Systems. Utah Retirement Systems provide funds, retirement benefits, annual cost of living adjustments and death benefits to plan members and beneficiaries in accordance with retirement statutes.

The Systems are established and governed by the respective sections of Chapter 49 of the Utah Code Annotated 1953 as amended. The Utah State Retirement Office Act in Chapter 49 provides for the administration of the Utah Retirement Systems and Plans under the direction of the Utah State Retirement board (Board) whose members are appointed by the Governor.

10. RETIREMENT SYSTEM (continued)

The Systems issue a publicly available financial report that includes financial statements and required supplementary information of the Local Governmental Non-contributory Retirement System. The Utah State Retirement Systems is on a calendar year which ends December 31, 2005. A copy of the report may be obtained by writing to the Utah Retirement Systems, 540 East 200 South, Salt Lake City, UT 84102 or by calling 1-800-365-8772.

Funding policy

The District is required to contribute 11.09% of their covered salary from January 2005 through June 2005 and 11.09% of their covered salary from July 2005 through December 2005. The contribution rates are the actuarially determined rates. The contribution requirements of the system are authorized by statute and specified by the Board.

The contributions by the District to the Local Governmental Noncontributory Retirement System for the years ended December 31, 2005, 2004, and 2003 were \$34,642, \$30,862, and \$26,678 respectively. The contributions were equal to the required contributions for each year and were paid by the due dates or within 30 days thereafter.

The Utah Retirement Systems have adopted Governmental Accounting Standards Board Statement 32 (GASB NO. 32), Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans. This resulted in reporting the 457 Plans as a "Trust Fund" rather than previously as an "Agency Fund". Now all of the assets and income of the 457 Plan are held in trust for the exclusive benefit of the participants or their beneficiaries rather than the assets of the employer. The assets are no longer assets of the employer and are not to be included in the employer financial statements.

The District also provides a 401-k plan for employees. All employees are given the opportunity, through payroll deductions, of additional participation in the 401-k plan. The contributions by employees to the 401-k plan for the years ended December 31, 2005, 2004, and 2003 were \$16,080, \$19,760, and \$25,037 respectively.

INDEPENDENT AUDITOR'S REPORT STATE OF UTAH LEGAL COMPLIANCE

To the Board of Directors
Bona Vista Water Improvement District

We have audited the accompanying financial statements of the business-type activities of Bona Vista Water Improvement District, for the year ended December 31, 2005 and have issued our report thereon dated May 31, 2006. Our audit included testwork on the District's compliance with the following general compliance requirements identified in the State of Utah Legal Compliance Audit Guide:

Public Debt
Cash Management
Budgetary Compliance
Impact Fees

Truth in Taxation & Property Tax Limitations
Purchasing Requirements
Other General Compliance Issues
General Compliance Special Districts

The District did not receive any major or non-major State grants during the year ended December 31, 2005.

The management of Bona Vista Water Improvement District is responsible for the District's compliance with all compliance requirements identified above. Our responsibility is to express an opinion on compliance with those requirements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether material noncompliance with the requirements referred to above occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements. We believe that our audit provides a reasonable basis for our opinion.

The results of our audit procedures disclosed an instance of noncompliance with requirements referred to above, which are described in the accompanying management letter. We considered this instance of noncompliance in forming our opinion on compliance, which is expressed in the following paragraph.

In our opinion, Bona Vista Water Improvement District, complied, in all material respects, with the general compliance requirements identified above for the year ended December 31, 2005.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors
Bona Vista Water Improvement District

We have audited the financial statements of the business-type activities of Bona Vista Water Improvement District, as of and for the year ended December 31, 2005, which collectively comprise Bona Vista Water Improvement District's basic financial statements and have issued our report thereon dated May 31, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Bona Vista Water Improvement District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Bona Vista Water Improvement District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Bona Vista Water Improvement District Board of Directors Page 2

This report is intended solely for the information and use of the audit committee, management, Board of Directors, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

May 31, 2006

Honorable Board of Directors
Bona Vista Water Improvement District

We have recently completed our audit of the basic financial statements of Bona Vista Water Improvement District for the year ended December 31, 2005. During our audit we noted the following items for your consideration:

1. State law requires that every public treasurer secure a fidelity bond, based on the previous year's budgeted gross revenues, which includes all funds collected or handled by the public treasurer. The current bond does not meet this criterion. We recommend that you increase the bond amount to meet the required criterion.

We appreciate the cooperation we received during the course of our audit.

Sincerely,

WOOD Richards & Associates

Dear Sir,

We have recently been informed by our auditing firm, Wood, Richards and Associates, that the fidelity bond we carry for our General Manager, who is also our public treasurer, is in noncompliance.

We have notified our insurance carrier, Utah Local Governments Ins. Trust, and have increased the fidelity bond to put us in compliance with the state requirements.

Sincerely,

Bona Vista Water District

Paul Hodson/General Manager
